March 2024 - September 2024

### JETBRAINS / HYPERSKILL

Introduction to Frontend

Completed in 2024

### JETBRAINS / HYPERSKILL

Introduction to JavaScript

Completed in 2024

### ODESSA NATIONAL MEDICAL UNIVERSITY

Master's Degree, Dentistry

September 2017 - June 2022

## PROFILE

I am a dedicated front-end developer skilled in HTML5, CSS3, JavaScript, React, and TypeScript. I create responsive, user-friendly web applications with clean, maintainable code. Proactive and collaborative, I deliver high-quality results. You can explore my personal projects on my [portfolio website](#) or [GitHub profile](#).

## SKILLS

- HTML5/CSS3
- JavaScript (ES6+)
- TypeScript
- React.js and JSX
- Redux.js and Redux Toolkit
- MongoDB
- Angular
- Vite
- jQuery
- SCSS (Sass)
- CSS frameworks (Bootstrap, Tailwind CSS, Material-UI)
- Version Control (Git, GitHub)
- REST API
- Responsive Web Design
- Basic SEO
- Debugging and Testing (Jest, React Testing Library)
- Basic knowledge of Back-End technologies like Node.js.
- Basic knowledge of UX/UI
- Accessibility (A11y)
- Time Management and Collaboration Tools (Slack, Jira)
- Skilled in using artificial intelligence tools to enhance productivity and problem-solving

## WORK EXPERIENCE

### FRONTEND DEVELOPER

SoftServe

January 2025 - February 2025

- UI & Validation:** Built new React/TypeScript components from design mockups, including robust registration forms with data submission and multi-language (i18n) support.
- Testing:** Ensured reliability with Vitest unit tests.
- Forms & Data Display:** Implemented forms for creating and managing user requests/offers, incorporating pagination and filtering for efficient data handling.
- API & Caching:** Integrated an external API for countries/cities, optimized with node-cache to reduce requests.
- Created a Backend Model & Caching:** Developed a backend model and endpoint for managing languages, including caching and a cache invalidation script to ensure data freshness.
- Swagger & Seeding:** Authored Swagger documentation for new endpoints and wrote seed scripts (categories, subjects, languages) for quick database setup.
- Scrum Master:** Organized sprints, maintained a Gantt chart for tracking progress, and led Agile ceremonies to ensure timely, high-quality deliverables.
